

Make the Impossible Possible

Continuing our growth in a rapidly changing society, we are reestablishing the company's foundation. Besides renewing our corporate philosophy and corporate logo, we have moved the headquarters into a brand new facility that will enhance communications and creativity. With a sense of speed, we will continue to boldly challenge the global markets and develop machines that deliver value and surpass customer expectations.

Presenting the new ZUIKO.

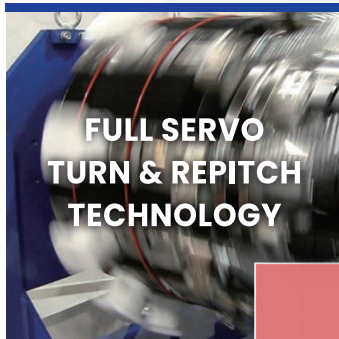

NEW HEADQUARTERS, NEW CORPORATE LOGO, NEW ZUIKO

The pattern of lines in the new corporate logo expresses technical strength, passion, and speed. From their convergence emerges the image of a "Z" which symbolizes the creativity and

teamwork of "ALL ZUIKO". The circular shape that embodies the lines, represents the gentle and harmonious nature of a Japanese global company that supports the healthcare industry.

INNOVATIVE TECHNOLOGY
